Yorkshire Microsurgery Workshop
Pinderfields Hospital
May 31st – Jun 1st, 2012

Who is the course aimed at?
- CT1 – ST2 trainees with little or no previous experience in microsurgery
- also suitable as a refresher course for more senior trainees

What does the course include?
- a 2 day course using Binocular Microscopes, Porcine Tissue and Flow Simulation Technology.
- intensive hands-on supervised practical sessions covering:
  o Basics of Microsurgery Technique
  o Vessel Anastomosis
    • end to end
    • end to side
    • interpositional vein graft
  o Nerve Coaptation
    • primary nerve repair
    • interpositional nerve graft

The practicals are complemented by lectures covering the principles of microsurgery.

Course Conveners
S Majumder  Consultant Plastic Surgeon
S Southern  Consultant Plastic Surgeon
R Pinder  Senior StR in Plastic Surgery

Faculty: Delegate ratio of 1:2
The course is delivered by Consultants and Senior StRs in Plastic Surgery

Course Dinner (included in course fee)
The course dinner is an essential part of the experience, providing an invaluable opportunity for faculty and delegates to engage in an informal setting.
